People, Purpose, Prosperity are the three towers of strength that drives us at the Magarpatta City Group. We have endeavoured to develop modern, self-sustained, eco-sensitive cities where a vibrant community of happy families live in harmonious natural surroundings. We as a group seek to attain, practise and reiterate these core values in every project we deliver. Our journey began with the creation of the 430-acre Magarpatta City, an inclusive growth model by partnering with 235 land-owning farmers.

Spread Across 500 Acres

#MyCityMyWorld

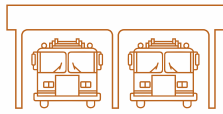

If you think while choosing a home, 'everything is here' is an impossible feature, then be assured that we are doing it for the third successive time. Welcome to the new 500 acres of brilliance called the Riverview City.

Living here is not only going to be a modern spectacularness but also the enhancement of 'ease to life'. A well-connected location that is in the vicinity of some of the important places in Pune city is blessed with the perfect sync of beautiful environment and modernity. The eastern front of Pune city is a major developing area with a great mix of modern infrastructure, excellent connectivity and natural greenery. Easy accessibility to major facilities, important places and rejuvenation spots is a key here and thus, been chosen by us for developing this grand new township.

Focusing on the factor of the convenience of living, we have planned this township to happily balance your work life, school and college life, personal life, and your hobbies altogether. All these factors come together and create a beautiful aura where everyone feels at home in their own world and that's why we call it #MyCityMyWorld. So come, let's book your relaxed life today!

Presenting the First Neighbourhood

Spread across **11.38 acres** | **7 Towers** | **21 Floors**

FALCON TOWERS is the first residential neighbourhood launched in this township. The Shaheen Falcon is the inspiration for the inception and colour scheme of this residential unit. The beautiful apartments are carefully designed to provide an optimum urban dwelling experience for a lifetime. A free-flow circulation of segregated vehicles & pedestrian movement is planned within this neighbourhood that eases out any kind of congestion and provides a base for smoother living.
